| Education  |                          |
|--|--------------------------|
| Seoul National University  | Seoul, Republic of Korea |
| Ph.D. Student, Electrical and Computer Engineering   | 2024.03 -                |
| Carnegie Mellon University   | Pittsburgh, PA, USA      |
| Visiting Ph.D. student, School of Computer Science   | 2024.08 - 2025.02        |
| Seoul National University  | Seoul, Republic of Korea |
| B.S., Electrical and Computer Engineering  | 2019.03 – 2024.02        |
| Experience   |                          |
| Visiting Researcher, Language Technology Institute – Carnegie Mellon University  | Pittsburgh, PA, USA      |
| - Multilingual Representation Learning for Medical NLP   | 2024.08 – 2025.0         |
| Publications   |                          |
| 1. Youngro Lee†, <b>Kyungjin Kim</b> †, Jongmo Seo   |                          |
| - CLE-SH: Comprehensive Literal Explanation package for SHapley values by statisti   | cal validity, Preprint   |
| Ongoing Research   |                          |
| Explainable AI for Multi-Label Chest X-ray Diagnosis: Layer-wise Grad-CAM with Hierarchical Feature Extraction   | Under Reviev             |
| Domain-Specific Multilingual Strategies for Medical NLP: A Cross-Lingual<br>Analysis of Orthographic and Phonemic Representations                              | Under Reviev             |
| Bridging Ensemble Performance and Transparency: Knowledge Distillation for<br>Obesity Classification on KNHANES Dataset  | Under Review             |
| AI-driven Analysis on BMI and Metabolic Syndrome  • Collaborative Research with Department of Nephrology, Korea University Anam Hospit                         | Work in Progres          |
| Interactive Visualization for Interpretable Machine Learning Results  • Collaborative Research with Graduate School of Data Science, Seoul National University | Work in Progres          |
| Machine Learning Approach for Identifying Bowel Obstruction in Crohn's Disease   | Work in Progres          |
| • Collaborative Research with Department of Radiology, Seoul National University Hospi   | tal                      |
